

Ultimate Book-Promotion Tool

This is the *Kitchen Sink Strategy*. If you've promoted your book before, but the results were underwhelming, then let's throw the kitchen sink at it!

We are going to throw everything possible at your book to make sure your book becomes visible, gets a boost in rank, and makes sales.

IMPORTANT: You can also promote your book from your website!

This is a big deal. Because it means that you can also avail yourself of services that promote your website, but don't do direct book promotion. People will come to your site and then click through to Amazon to buy your book.

I highly recommend you promote your book directly and also promote your book from your website. This can easily double the power of your promotion. Many authors forget to do both. Thus missing a big promotional opportunity.

What do I mean by 'direct promotion'? Direct promotion is when you submit the Amazon link of your book to a site like BookBub. BookBub will send out an email to their fans with the Amazon link to your book. This bypasses your website.

If you have a few extra bucks, I highly recommend you hire a Fiverr worker to do all the submitting for you. This will make things much quicker and easier for you. *Simply send this PDF to your Fiverr worker.*
